QUALITY REPORT

SWAG LAB Web Application

Table of Contents

Quality Status

Swag Labs Web Application Version 1.0 is the first official release. Although two minor issues were identified, they do not have a significant impact on core functionality. Therefore, i recommend this version for release.
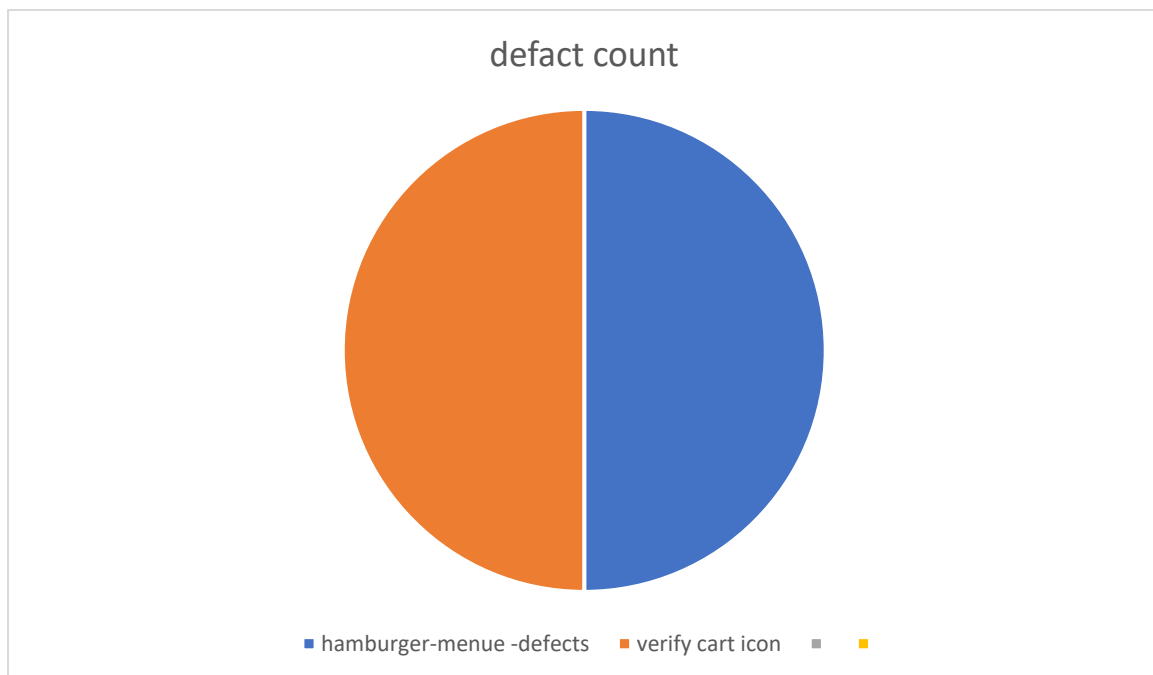

Test Environments Covered

i have tested SWAG lab Web Application Version 1.0 in all the below different Test Environments:

- Windows 10 – Chrome, Firefox, IE 11 and Edge

Defects by Functional Area

The below is the count of existing defects by Functional Area:
